FCE (Wales) Ltd Environmental Policy Statement

It is the policy of FCE (Wales) Ltd to:

FCE (Wales) Ltd recognises that day-to-day operations can impact the environment. We seek to minimise the environmental impacts of our activities on the surrounding environment and communities.

We aim to protect and improve the environment through systems and procedures that ensure compliance with all relevant environmental legislation and codes of practice. FCE (Wales) Ltd seek sustainable development solutions in partnership with our clients and other stakeholders, which conserve energy, materials and resources by minimising consumption, maximising efficiency and reducing waste.

The management is committed to:

1. Development of the Environmental Policy and ensuring that procedures are in place for the statement to be adhered to.
2. Keeping up to date with appropriate legislation.
3. Ensuring there are sufficient resources to achieve the best practicable standards of Environmental management.
4. Provide adequate training and information to anyone working under our remit.
5. Utilising of supply chain management to encourage our subcontractors and suppliers to minimise the use of materials, energy or processes which may harm the environment.
6. Implement this policy through an integrated Health Safety and Environmental Management System.

FCE (Wales) Ltd are working towards gaining ISO 14001 Standard for Environmental Management. We set and regularly review environmental objectives, targets and key performance indicators to enable us to monitor our environmental performance.

The co-operation of all FCE (Wales) Ltd employees as well as our Clients and Supply Chain is vital to the success of this Environmental Statement.
